

HEAVY DUTY

S O L U T I O N S Keep Operating

Capability Statement

Your Uptime is Our Mission

Company Overview

Heavy Duty Solutions is the go-to partner for civil construction and mining companies across Australia, delivering cost-effective, and high-quality equipment maintenance and repair services. As your all-in-one equipment solution, we provide on-site repairs, workshop rebuilds, and preventative maintenance with top-notch skill and fair pricing. Our impeccable safety record, rapid response times, and commitment to operational excellence ensure your projects stay on track.

Build and Mine with Confidence

Our Core Capabilities

General Repairs

Our team is relied upon by Australia's leading mining and construction firms for precise repairs, routine maintenance, and complex hydraulic diagnostics to minimise downtime and ensure equipment reliability.

Component and Equipment Rebuilds

We restore engines, transmissions, and entire machines to like-new condition, meeting the rigorous demands of heavy-duty projects. Our high-quality rebuilds deliver long-term performance and cost savings.

Line Boring

Using advanced boring technology, we restore equipment with precision, either on-site or at our Midvale workshop. Our skilled technicians manage everything from strip-down to reassembly.

Field Service

Our three fully equipped mobile units deliver expert maintenance and repairs to sites across Australia, handling routine checks to urgent fixes, keeping your projects on schedule.

Breakdowns

When equipment fails, our rapid response team delivers reliable, same-day solutions using advanced diagnostics to get you back online quickly.

Achieve Operational Excellence with Heavy Duty Solutions

Why Civil Construction and Mining Companies Choose Us

Minimised Downtime

We respond rapidly to on-site issues and breakdowns, keeping your equipment and business operational.

Cost-Effective Solutions

Our proactive maintenance and rebuilds save you thousands compared to equipment replacements.

Expert and Efficient Service

With quick turnarounds, top-tier technical skills, and early issue detection, we save you time, money, and hassle.

Long-Term Partnership

Our licensed team, backed by an impeccable safety record, provides reliable maintenance and transparent communication you can rely on.

Why Heavy Duty Solutions Stands Out

Our Differentiators

- 100% Australian-Owned: We're proudly local, delivering services with integrity, transparency, and a thorough understanding of the Australian market.
- Impeccable Safety Record: Led by Managing Director and licensed heavy mechanic Colin Stott, our team upholds the highest safety standards.
- Cost-Effective Expertise: Our rebuilds and proactive maintenance extend equipment life, saving you significant replacement costs.
- Rapid Response: We provide same-day service for urgent needs, with mobile units equipped to support remote sites across Australia.
- Industry Certifications: Repairers License

You Can Rely on Us

Our Team and Expertise

With combined experience spanning many decades, our team of 10 skilled technicians, led by licensed heavy mechanic Colin Stott, brings extensive technical expertise and a commitment to safety and quality.

Expect transparent pricing, honest service, and high-quality repairs without delays or surprises. Beyond quick fixes, we foster lasting partnerships by proactively optimising your equipment to prevent future issues. Trust Heavy Duty Solutions as your dependable maintenance partner for the long term.

What You Can Expect from Heavy Duty Solutions

Our Values

Integrity

We stand by our word, delivering honest and transparent service.

Reliability

We're there when you need us, with high-quality work you can count on to keep your operations running smoothly.

Expertise

Our technical know-how and problem-solving skills mean your equipment gets the best care, every time.

Partnership

We build lasting relationships by understanding your business, anticipating your needs, and backing you up with solutions that last.

We Keep Equipment Running and Businesses Thriving
